SUMMARY

Recently graduated with a Bachelor of Science in Computer Science and Engineering. Eager and dedicated individual with strong problem-solving and analytical skills, seeking a dynamic career in this service. Bringing adaptability, a fresh perspective, and a robust work ethic to contribute to this industry.

SKILLS

- Problem-solving and analytical
- C,C++,JAVA,Python,DSA
- MySQL
- HTML,CSS,Tailwind,JavaScrip,React,Node.JS,Next.JS
- Website Development Project
- Technical analysis
- Multitasking and prioritization
- Microsoft Office proficiency
- Strong interpersonal skills
- Project management

PROJECTS

Web Developer Portfolio

-**GitHub:** [webDeveloper-portfolio](#)

A personal portfolio website showcasing my web development skills and projects. It features a responsive design, smooth navigation, and a contact form integrated with email services. Deployed on Netlify for seamless performance.
Technologies: HTML, CSS, JavaScript, Netlify

Flower Shop Website

-**GitHub:** [flower-shop-project](#)

An e-commerce website for a flower shop, featuring product listings, a shopping cart, and a checkout system. The site is fully responsive and optimized for smooth user interaction.
Technologies: HTML, CSS, JavaScript, Netlify

Gen Z Architects Website

-**GitHub:** [gen-z-architects](#)

A professional website designed for an architectural firm, highlighting projects, team members, and services. It offers a clean, responsive design with easy navigation to provide visitors with an optimal user experience.
Technologies: HTML, CSS, JavaScript

Biker Zone Website

-**GitHub:** [bikerz-zone-bootstrap](#)

A fully responsive, live website for a motorcycle dealership, built with Bootstrap. It features a product gallery, services section, and contact form, offering an optimized user experience across all devices.
Technologies: HTML, CSS, Bootstrap

Product Inventory Project(Software)

-**GitHub:** [JavaApplication1](#)

This project demonstrates my proficiency in Java, Swing, and MySQL by creating a robust software solution for managing product inventory. Additionally, all modifications are reflected in the MySQL database, showcasing my ability to integrate front-end applications with back-end databases effectively.
Technologies: NetBeans, JAVA Swing, MySQL

Exciting Gamer Site

-GitHub: [GitHub Repo](#)

Developed an engaging gaming site featuring multiple sections like video highlights, game categories, and career opportunities. Integrated responsive design for seamless viewing across devices.

Enhanced user interaction with hover effects and animated buttons.

Technologies:HTML,CSS,Netlify

COMPETITIVE PROGRAMMING PROFILE

Virtual-Judge: [MehediHasan177](#)

LeetCode: [Mehedi177](#)

CodeChef: [solar_grand_01](#)

HackerRank: [mdmehedi3799](#)

EXTRA CURRICULAR ACTIVITIES

Thesis:

-Developed a project on Python Implementation of Machine Learning Algorithms:A Comprehensive Project.

JAVA Practice Repository

-GitHub: [Java Practice Repository](#)

I practice Java every day and push my code to GitHub to track my progress. This repository includes various exercises, from sorting algorithms to object-oriented programming, showcasing my growth and commitment to mastering Java.

Key::DSA,OOP,Recursion,LinkedList,ArrayList,Hash,Graph

EDUCATION

Rajshahi University of Engineering and Technology, Rajshahi, Bangladesh

Bachelor of Science: Computer Science and Engineering

Saidpur Govt. Science College, Saidpur,Nilphamari Bangladesh

Higher Secondary School Certificate: Science

ACHIEVEMENTS

- **Champion**,Web Development Idea Contest(2022)
- **Champion**,Game Development Idea Contest,NCPC(2022)
- Completed a **Professional Development** course in Web Development
- Led at least a score of project groups successfully

ACCOMPLISHMENTS

Champion in 2022 Web and Game Development Idea Contests, completed CSE undergraduate degree, and advanced professional development in web development
